EDUCATION

Ph.D. in Economics, Rutgers University

May 2021 (Expected)

Dissertation Title: "Essays on Panel Data Models in Econometrics"

M.A. in Applied Statistics, Yonsei University

2016

B.A. in Statistics, University of California at Berkeley

2013

RESEARCH INTERESTS

Econometric Theory, Financial Econometrics, Machine Learning, Forecasting Concentration: high-dimensional data, large panel data and factor models

JOB MARKET PAPER

"Feasible Weighted Projected Principal Component Analysis for Factor Models with an Application to Bond Risk Premia"

Abstract: In this paper, I propose a feasible weighted projected principal component (FPPC) analysis for factor models in which observable characteristics partially explain the latent factors. To estimate the factors efficiently, I take into account both cross-sectional dependence and heteroskedasticity by using a consistent estimator of the inverse error covariance matrix as the weight matrix. To estimate the factors accurately, I employ a projection approach using characteristics because it removes noise components in high-dimensional factor analysis. My FPPC estimators of the factors and loadings have faster rates of convergence than those of the conventional factor analysis. Moreover, I suggest an FPPC-based diffusion index forecasting model. The limiting distribution of the parameter estimates and the rate of convergence for forecast errors are obtained. Using an empirical study with U.S. bond market and macroeconomic data, I demonstrate that the proposed model outperforms benchmark models based on conventional principal component estimators. I also show that the proposed model performs well among a large group of machine learning techniques in forecasting excess bond returns.

PUBLICATIONS

"Standard Errors for Panel Data Models with Unknown Clusters," with Jushan Bai and Yuan Liao, Journal of Econometrics, forthcoming.

"Tree Size Determination for Classification Ensemble," with Hyunjoong Kim, 2016, Journal of the Korean Data and Information Science Society, 27(1), 255-264. (Pre-doctoral)

WORKING PAPERS

"Feasible Generalized Least Squares for Panel Data with Cross-sectional and Serial Correlations," with Jushan Bai and Yuan Liao, R & R, Empirical Economics.

"Factor Augmented Neural Network for Forecasting Using Many Predictors" (Work in Progress)

RESEARCH EXPERIENCE

Research Assistant for Prof. John Landon-Lane, Rutgers University	2020
Research Assistant for Prof. Hyunjoong Kim, Yonsei University	2014 - 2016
Research Assistant, Actuaries Department, KPMG Korea	2010

TEACHING EXPERIENCE

Lecturer (for recitation), Rutgers University

2019

• Advanced Economic Statistics – Graduate Course

Teaching Assistant, Rutgers University

2017 - Present

• Financial Economics (x3), Advanced Cross-sectional and Panel Econometrics, Introduction to Microeconomics, Introduction to Macroeconomics, Environmental Economics

Teaching Assistant, Yonsei University

2014 - 2016

• Data Mining (x3), Introduction to Statistics (x2) – Graduate Courses

HONORS AND AWARDS

Alfred S. Eichner Prize in Economics, Rutgers University 20:	020
 In recognition of path-breaking and innovative dissertation research. 	
Hiroki Tsurumi Graduate Dissertation Award, Rutgers University 200	20
• In recognition of excellence in PhD dissertation research in econometrics.	
Professional Development Fund Award, Rutgers University 20	18
Teaching Assistantship, Rutgers University 2017 – 2017	21
Teaching and Research Assistantship, Yonsei University 2014 – 20	16

SEMINAR PRESENTATIONS

Econometrics Seminar, Rutgers University

Dean's List, University of California at Berkeley

Aug 2020

2013

SKILLS AND PERSONAL

Languages: English (fluent), Korean (native)

Certificates: Society of Actuary - P, FM, VEE ECON, VEE CORPFIN

Military Service: Sergeant, Republic of Korea Army 2011 – 2013
